

Americas Boardroom

- Complete demolition of an existing smaller conference room
- State of the art video conferencing boardroom with kitchenette
- Audio-video systems, dimmable lighting and motorized shades were fully integrated into a wireless, hand held touch panel for instant room / mood settings
- High-end finishes throughout including hand stitched leather wall tiles, custom match finished oak millwork and cabinet door faces, and seamless acoustical suspended ceiling
- Project was constructed with no impact to surrounding occupied work space
- Design build mechanical, electrical, plumbing and fire safety systems

COMPLETED:

Spring 2012

LOCATION:

Seattle WA
