

Starbucks Headquarters

- 175,000 SF of interior demolition and complete office build-out on (7) floors
- The 1904 brick and timber construction was rejuvenated after extensive sandblasting
- New open work space, offices, conference rooms, kitchens, and restrooms
- Precise phased scheduling was implemented so to occupy each floor as soon as possible while other floors were still under construction
- Design build mechanical, electrical, plumbing and fire safety systems

COMPLETED:

Winter 2008

LOCATION:

Seattle WA

TEAM:

Client - Starbucks Coffee Company

Architect - NBBJ
